TULIPS

We have numbered our varieties to make it easier to choose a selection for your own garden, from one of the largest existing collections in the country.

Fall planting bulbs of all descriptions will be extremely scarce this year, and we therefore urge everyone to place their order early, to avoid disappointment.

The numbers after the name of the tulip designates the approximate height of that variety at blooming time. The letters following the height indicate as follows:

E — Early blooming. M — Medium blooming.
L — Late blooming.
